NEW

Flexibility without limits.

Our new 36V cordless table saw.

Powered by our MULTI VOLT
battery or AC adapter

Easy to transport, store and operate

Largest rip range in its class

Explore every single highlight.

We introduce to you our new 36V cordless table saw. A portable power tool, which is easy to transport, store and operate. Every part and feature is designed and developed with the highest level of safety, convenience and accuracy in mind. In addition to the fact that it is powered by our MULTI VOLT battery, it has the highest rip capacity for a cordless table saw.

Can be powered by our MULTI VOLT battery or AC adapter

98 m linear cuts through 13 mm chipboards, 23 m linear cuts through 50 mm pine wood*

*With MULTI VOLT Battery BSL36B18.

Extractable outfeed support adds 150 mm extra surface

C3610DRJ(H4Z)

36V Table Saw

Specifications

Motor	36V Brushless Motor
Ambient operating temperature	-10 °C to 40 °C
No load speed	5,000 RPM
Blade	Ø254 mm 40T carbide tipped
Blade body thickness	1.6 mm
Blade kerf range	2.3 - 2.5 mm
Riving knife thickness	2.0 mm
Bevel range	0° - 45°
Miter gauge angle	60° right or left
Working table size	730 x 559 mm
Outfeed support size	730 x 50 mm
Depth of cut at 0°	79 mm
Depth of cut at 45°	57 mm
Maximum rip	Left 440 mm Right 880 mm
Power supply type	BSL36B18 or ET36A
Weight	30.5 kg with BSL36B18

Standard accessoires

Miter gauge - blade 4100024 - blade guard - anti-kickback pawls - rip fence - push stick - outfeed support - 2 blade wrenches - hex keys

Characteristics

Can be used cordless or corded
Markets first full size 254 mm cordless jobsite table saw
Market leading 880 mm rip capacity
Soft start: reduces noise, recoil and stress on electrical system
Rack and pinion telescoping fence system
Overload protection: automatically shuts off the motor
Security switch to lock the saw from unintended use
Electric break: stops the rotation of the blade within seconds

Brushless Motor

254 mm 40-toothed
carbide tipped blade

Rip fence can be used both
right and left of the saw table
and is extendable up to 880 mm

Easily adjust the height
and bevel of the blade

Safety first.

To ensure optimal safety, we provided the start-stop button with a smart feature: the switch cover. In case of emergency you can press the red switch cover. The table saw will stop instantly and prevent you from getting injured.

Saw, fold and roll.

Our fold and roll stand (376510) is a must-have that is optional for C3610DRJ(H4Z). It increases stability to ensure accurate cuts as well as easy transport.

Extend the table. Expand the options.

Largest table size.

Larger cutting capacity.

Attach the rip fence to the rails and extend it up to 880 mm from the blade. In addition, the working surface is also extendable in length. The outfeed support at the back of the table saw gives you about 150 mm extra support when cutting longer workpieces.

More power: up to 5,000 RPM.

Due to the powerful Brushless motor and MULTI VOLT battery, the blade is able to reach approximately 5,000 rotations per minute. It allows you to cut more workpieces and work extremely fast.

MULTI VOLT battery

Same size. More power.

1,080W high power output.

The MULTI VOLT battery, paired with MULTI VOLT 36V tools, offers unprecedented cordless power over 1,000W.

Compact & lightweight.

The MULTI VOLT battery has almost the same size and weight as an 18V battery (BSL1850/BSL1860), and produces the power of a 36V.

Automatic voltage change between 18V and 36V.

The MULTI VOLT battery is designed for full compatibility with the current 18V slide range, and automatically changes between 2 voltages, 36V - 2.5Ah and 18V - 5.0Ah, according to the tool used.

Cordless or corded? You decide.

One of the unique features of our new 36V cordless table saw, is that it is now powered by our MULTI VOLT system. With a fully charged MULTI VOLT BSL36B18 battery, you can make 98 m of linear cuts through 13 mm chipboards or 23 m of linear cuts through 50 mm pine wood.

In case you rather have continuous power, you can easily switch to the powerful AC adapter. Whether you are near an outlet or not, you can now go for the highest ripping performance, wherever you are.

BSL36B18
MULTI VOLT battery

ET36A
MULTI VOLT AC adapter

*ET36A is not to be used in combination with G3623DA Cordless Disc Grinder.

Compatible with over 100 tools.

Our innovative MULTI VOLT battery powers a wide range of cordless indoor and outdoor power tools. Moreover, this battery is compatible with both 36V and 18V power tools, and it's even backwards compatible with your Hitachi power tool(s). Now you are able to cut, grind, drill, mow, blow, chop and trim with the same power as corded power tools, but with the ultimate freedom of working wherever you want.

The advantages of MULTI VOLT

- One battery for the entire range of 36V and 18V power tools.
- One battery delivers all the power you require, even for 36V power tools. So no hassle with two 18V batteries!
- Maximum power till the very last second.
- Long lifespan.
