Compact and Lightweight

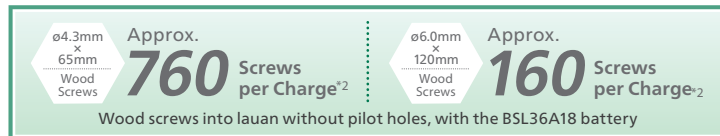

WH36DC is more compact yet as powerful as the WH36DB which make it easy to use and ideal for confined spaces.

High torque and high speeds help you get the job done quickly

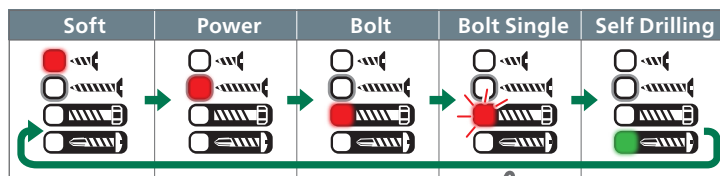

The speed of previous model, WH36DB, is indexed as 100.

5 Tightening modes for various applications

NEW Bolt Modes

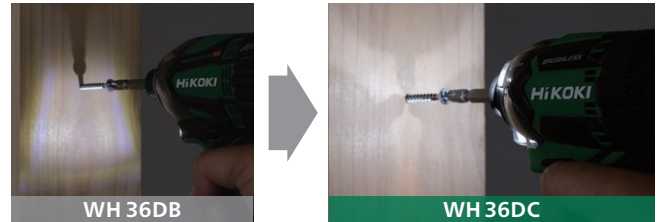

Bolt single mode is used when more care is required when tightening bolts & nuts on lighter materials such as fences and furniture. When pulling the trigger in bolt single mode, the driver will automatically stop after applying a number of impacts.
