

D3613DA (H4Z)

36V 13mm Heavy-Duty Cordless Drill

Barcode 4966376404278

Compact body and higher power than AC products

Fitted with our first electric clutch that allows continuous drilling without releasing the trigger

Two speed function - high & low

Electronic variable speed trigger switch, forward and reverse rotation button

Reactive Force Control (RFC)

D shape slip-resistant double-layer handle

1.5-13mm keyless chuck with automatic spindle lock

Specifications

Output Voltage	36V		
Motor	Brushless DC		
Two Speed function	High / Low		
Switches	Electronic variable speed trigger switch, forward and reverse rotation button		
Handle	D shape slip-resistant double-layer handle		
Chuck (with automatic spindle lock)	1.5 - 13mm keyless chuck		
Battery	Multi Volt BSL36A18		
Capacity	Drilling	Metal	13mm
		Wood, auger bit	40mm
		Wood, self feed bit	65mm
No load speed	Low	0-1,000 (min ⁻¹)	
	High	0-1,400 (min ⁻¹)	
Weight with battery	4.1kg		
Dimensions with battery (L x W x H)	356 x 247 x 97 mm		

Included Accessories*

Hook, soft grip double layer side handle and depth gauge

Applications

Drilling of various metals, woods, plastics, etc.

Features

The 36V 13mm Heavy-Duty Cordless Drill has a higher drilling speed under high load than AC powered corded drills

The brushless motor is powerful enough to drill holes up to 13mm Ø in metal, 40mm Ø holes in wood using an auger bit, and 65mm Ø holes in wood using the self-feed bit.

The electric clutch allows continuous drilling by immediate re-rotation of the bit after the motor stops without having to release the trigger.

The D shaped slip resistant double layer handle helps improve stability and reduce vibration

Reactive Force Control (RFC) minimises the twisting of the users arms when the tool suddenly jerks during the drilling of holes

The convenient integrated hook can be used to hang the tool away safely between operations

Selling Points

High speed drilling in high-load operation

Electric clutch function

Multi Volt battery

Reactive force control (RFC)

Slip-resistant double-layer D handle

Variable speed control switch with forward / reverse selector button

Soft grip double layer side handle

Depth gauge

*6 year warranty on selected products with online registration. For details visit www.hikokipowertools.com.au
