

WR22SE(H1Z)

19mm (3/4") Brushless Impact Wrench

Barcode 4966376290031

Robust and highly durable aluminium housing body (AHB)

Powerful tightening torque

Adjustable side handle

Compatible with engine generators

Specifications

Capacity	Ordinary bolt	M14 - M24
	High-strength bolt	M16 to M22
Maximum Torque - Tighting		620Nm
Maximum Torque - Nut busting		1,800Nm
Square drive		19mm (3/4")
Type of motor		AC Brushless motor
Input power		800W*
Socket hold type		Socket pin & ring
No load speed		0 - 1,400 rpm
Impact rate – High mode		0 - 2,000 (min ⁻¹)
Type of Switch		Tumbler-type forward/reverse switch
Weight		4.6kg
Dimensions (L x H)		280 x 261mm

*800W brushless motor is equivalent to 950W brushed motor

Features

- Aluminium Housing Body (AHB) for increased motor durability
- Powerful tightening torque of 620Nm
- Small & lightest AC impact wrench in its class helps decrease user fatigue
- Stable performance even at voltage drops
- Highly efficient and maintenance-free AC brushless motor
- Compatible with engine generators

Included Accessories*

- Side handle and carrying case
- *Sockets not included

Selling Points

- Robust and highly durable aluminium housing body
- Highly efficient and maintenance-free AC brushless motor
- Powerful tightening torque
- Smallest in its class
- Lightest in its class
- Stable performance even at voltage drops
- Compatible with engine generators

Applications

Tightening and loosening of all types of bolts and nuts, used for securing structural items

*6 year warranty on selected products with online registration. For details visit www.hikokipowertools.com.au
