

WR36DA(H4Z)

36V Brushless High Torque 19mm Impact Wrench

Barcode 4966376323531

Conforms to IP56 making it dust and water resistant

High tightening/loosening performance almost equal to AC high-end impact wrenches

Highly durable hammer case cast with an iron bushing

Vibration isolation system at the junction with the battery

Specifications

Capacity	Ordinary bolt	M12 - M30
	High-strength bolt	M10 to M24
Maximum Torque	Tighting	1,100Nm
	Nut busting	1,800Nm
Square drive		19mm (3/4")
Type of motor		Brushless motor
Socket hold type		Friction ring and hole
No load speed	High mode	0 - 1,500 rpm
	Medium mode	0 - 1,200 rpm
	Low2 mode	0 - 900 rpm
	Low1 mode	0 - 600 rpm
Impact rate	High mode	0 - 2,900 (min ⁻¹)
	Medium mode	0 - 2,300 (min ⁻¹)
	Low2 mode	0 - 1,800 (min ⁻¹)
	Low1 mode	0 - 1,200 (min ⁻¹)
Type of Switch	Variable speed trigger plus forward & reverse button with brake	
LED Light	White LED	
Weight	3.7kg (inc. battery)	
Battery	Multi Volt	
Dimensions (L x H)	221 x 290mm	

Features

4 step tightening mode selector

Maximum tightening torque 1,100Nm

Manufactured to meet the requirements of IP56 (dust-tight and water resistant) for electrical equipment as per IEC60529

Brushless DC motor

Easy to operate

Included Accessories*

Belt hook

* Battery not included

Selling Points

Conforms to IP56 making it dust and water resistant

High tightening/loosening performance almost equal to AC high-end impact wrenches

Highly durable hammer case cast with an iron bushing

Vibration isolation system at the junction with the battery

Compact body

Continuously operable thanks to the 36V brushless motor

Applications

Tightening and loosening of all types of bolts and nuts, used for securing structural items
