

## DH12DD(H4Z)

### 12V PEAK SDS Plus Rotary Hammer

Barcode 4966376409952

Anti-vibration handle

Dust tight housing protection

Double layer switch handle

#### Specifications

Type of power	12V	
Type of motor	Brushless	
Drill bit	SDS Plus	
	Concrete	18mm
Capacity	Steel	13mm
	Wood	18mm width
No-load speed	Normal mode	0-1,080rpm
	Low mode	0-800rpm
Impact energy	1.2J	
Handle configuration	L-shape handle	
Light	LED white	
	Constant speed control	
	Reactive Force Control (RFC)	
Functions	Battery power indicator lamp	
	Auto stop	
Weight	2.1kg	
Dimensions (LxWxH)	246 x 202 x 74mm	

#### Features

- Compact body and grip for easy handling
- Anti-vibration handle for comfortable drilling
- Accessible change lever for easy operation
- Dust tight housing protecting the motor from damage
- Adjustable internal pressure mechanism to maintain air pressure and stabilizes hammering operation
- Double-layer switch handle for comfortable operability
- One-push bit mounting requiring no grip operation or tools
- Compatible with the HiKOKI 12V PEAK slide li-ion battery BSL1225M

#### Selling Points

- Anti-vibration handle for comfortable drilling
- Accessible change lever for easy handling
- Dust tight housing protection

#### Applications

- Suitable for demolition projects
- Drilling into wooden, plastics, mild steel and aluminium
