### Features

- RFC (Reactive Force Control) - When the gyroscope sensor built in the controller detects a predetermined angle, the motor stops automatically to prevent excessive jerking of the tool
- LED Light warning signals occur with RFC and when the tool is overburdened or overheats
- Due to the highly durable design that is resistant to heat generation, it is difficult to stop even during continuous work.
- LED Light warning signals occur with RFC and when the tool is overburdened or overheats
- The side handle can be mounted in 11 different positions to improve workability
- Compatible with the HiKOKI MultiVolt battery
