

CS3630DC(H4Z) 36V Brushless 300mm Chainsaw

Barcode 4966376409426

High 12.6m/s cutting performance

Brushless motor for high durability

390 cuts of work per charge

3.2kg compact & lightweight body

Specifications

Voltage	36V
Motor type	Brushless
Switch Type	Trigger
Chain bar length	300mm
No-load speed	12.6m/s (760m/min)
Approx. cuts per charge	390 cuts
Oil Tank Capacity	70ml
Chain Type	90PX-45E
Chain Pitch	3/8"
Handle Type	Top Handle
Weight including battery	3.2kg
Dimensions (L x W x H)	578 x 184 x 194mm
Battery	HiKOKI Multi Volt batteries

Features

1.2kg lighter in body size and 40% smaller than its' predecessor CS3630DA for ease of handling.

High 12.6m/s cutting performance even under high load with less locking of the saw chain thanks to the high power and high torque brushless motor.

Capable of cutting approx. 390 times per charge.

Approx. 44% less vibration than its' predecessor thanks to the direct drive system.

To prevent the nut from unintentional falling, the nut is retained on the side cover by the claws. It also does not fall off at the time of removing the side cover.

The brake lever is in the OFF position during normal operation. When the brake lever is pushed to the ON position, chain brake is activated and the saw chain stops.

Applications

Cutting wood & logs.
